2012 Special Expedition

Join *Dr. Larry McKenna* to introduce divers to the **Wrecks of Manokwari**; Then travel to **Numfor Island** to search for lost U.S. Marine P-38 planes in shallow water; participate in an island village traditional welcome beach party & BBQ.-*THEN*- **Swim with the Whale Sharks of Nabire**. The dive world is scrambling to get to Nabire. Smithsonian & National Geographic have been there. We can dive *WITH* the Whale Sharks and film them (*No Touching*)

All of these events and more can be experienced on This very Special "Triple Header" Adventure.

Dive reports indicate from between **3 to 20** Whale Sharks feed at **Nabire** in early mornings. We will spend 2 days there to be *SURE* we can visit with these giants.

Numfor was a USMC fighter plane base in WWII. when they left, all material was abandoned, including five P-38's These planes are supposed to be in 20 feet of water where the runway was. With local knowledge, we will explore to see what we can find.

We will dive a selection of these wrecks for 3 days and also dive on marine life. Cross Wreck at night can be spectacular in shallow waters for critters. A dive to the "Mystery Ship" may be scheduled only for divers who are deep dive certified and favorable sea/wind conditions. "Mystery Ship" is at 150 feet with a layer of heavy silt
